Attn: Notice No. 641

Dear Sir,

As one of the petitioners for the proposed new viticultural area to be called "Cayuga Lake", I would like to take this opportunity to reiterate my support for the proposal.

With a growing number of wineries being started in the Finger Lakes, it is becoming more important than ever to qualify certain areas within the larger area. Not only is the proposed Cayuga Lake viticultural area different from the other lake areas as defined by topography and soil types, but is different in the style of wine produced. It is important to define these differences within the growing framework of wine so that the consumer too can differentiate.

Thank you and the Bureau of Alcohol, Tobacco and Firearms for your help and assistance in this matter.

Sincerely,

Susanna Knapp

Dear Sirs,

Because of the fact that many wineries in the "CAYUGA LAKE" area have won high prizes in international competitions, it seems most appropriate to establish a viticultural area in this region. It will give deserved recognition to the wineries + help consumers in making a good choice. — Sincerely, Amy + Gene Hunter

TO WHOM CONCERNED —

I am writing in support of the designation of a CAYUGA LAKE VITICULTURAL AREA.

This is a growing wine-making area — both in quantity and quality.

Recognition is appropriate. Jan Shad

Dear Sirs:

We are in favor of the naming of the Cayuga Lake area as an appellation area of winemaking and fine vineyards. This area of upstate New York produces fine wine particularly unique to this part of the country and should be recognized for such.

Sincerely,

Dear Sir,

I have been making wine for 25 years and over that time span have used juice from grapes grown in N. Western Pa, along Lake Ontario and all over the Finger Lake. I heartily support the designation of a Cayuga Lake Viticultural Area which in my opinion fulfills all the requirements.

As the owner of a Small Farm Winery located in the proposed Cayuga Lake Viticultural area I strongly support its creation. It will help consumers identify our wine and the location of our winery.

It will also help demonstrate the maturity of our industry as we model after our European competitors.

Sincerely
