Dear Sir.

I want to offer my support for the proposed March, 2003 TB regulation, which addresses the alcohol content and method of production of flavored malt beverages

Malt beverages, both in terms of production and alcohol content, are clearly different than other forms of alcohol beverages, i.e, wine and spirits

I encourage you to implement the standard, which separates malt based beverages produced at the less than .5% alcohol level, from other alcohol beverages

Thank you for your consideration

Yours truly,

Alan C. Horton
