Subject: 90-10 is a good idea

As an employee of Anheuser-Busch, I am writing to express my support for the U.S. Treasury's Alcohol and Tobacco Tax and Trade Bureau proposed rulemaking for flavored malt beverages. C2001R-136P).

The proposed rule will help maintain an orderly marketplace. It will also help clearly identify the differences between a brewed product and distilled product. Brewers have shown that the technology to produce products at the rates in the proposed rule exists and will the transition will be easy and smooth with no loss in product quality.

Thank you for the opportunity to express my opinion supporting the proposed rule for flavored malt beverages.

Sincerely,

B.J. Fullenkamp
