Dear Chief, Regulations and Procedures Division:

I am writing in support of the proposed 0.5 percent standard for flavored malt beverages.

The proposed standard is the best way to maintain clear distinctions between beer and liquor and it is the best way to preserve the flavored malt beverage category.

I do not support the 51/49 standard because it would make the federal regulation contrary to many states' laws. As a result, the same product could be a beer in some states and a liquor product in other states. Thank you,

Jeff Bartnett
