How Do I Complete an Excise Tax Return?

1. From the USER CENTER SCREEN, click on **Private Forms** under the **Forms Heading**. Select Excise Tax Return TTB F 5000.24 from the list of forms.

2. The following screens appears:

3. To complete the form, you should use the current procedures for completing the paper form. Be sure to only use the mouse or the *tab* key to enter information into the fields. **DO NOT use the enter key to enter information in the fields.** The enter key will cause edits to be performed on your form, which may slow data entry. Also, the *Back* and *Forward* buttons on your browser are also not to be used except where expressly instructed.

4. The address information from the user profile will be entered into the company information on the tax form. Information provided from the profile can be edited within the tax form if necessary.

5. The other fields should be completed as follows:
   - You must enter the serial number using this format:
     - 2000-01 for period returns
     - P-2000-001 for prepayment returns
     - In these examples, “2000” is the calendar year covered in the tax return and the “01” or “001” is the number of original excise tax returns filed for that year.
   - You must select the type of return, either original or amended.
You must select the Form of Payment. The choices are “EFT” or “Other”. If “EFT” is selected, you must choose one of the dropdown options, either “ACH” or “FedWire”. “ACH” refers to electronic payments that will be initiated through Pay.gov. “FedWire” are electronic payments outside of the Pay.gov system. “Other” should be marked only when your tax liability is zero “0”.

You must select the Return Covers: “Period” or “Prepayment”.

For Period Returns
- You must insure the appropriate year is selected from the drop-down box. If you are selecting a semi-monthly return, you must insure that the appropriate period is selected from the second drop down box, as the default pre-populated period corresponding to the serial number may not be correct. If you are a winery and are filing either an annual return or a return for a period other than semi-monthly, you must select “Other” from the second drop down box. You must enter the return period on the form to the right of “Other” if you select this option.

For Prepayment Returns
- You must enter the appropriate “date products to be removed”.

You must enter your nine-digit Employer Identification Number in the appropriate field. Do not include the dash (“-“), as it will be auto-populated.

You must enter your permit number or registry number in the following format:
- **Tobacco permit number**: TP-ST-##### or PT-ST-#####
- **DSP registry number**: DSP-ST-#####
- **Winery registry number**: BW-ST-##### or BW-ST-##### or BWN-ST-#####
- **Brewery registry number**: BR-ST-AAA-##

The permit or registry should match that on your approved permit, notice, or registration. In the above formats, the ST in each number represents the state abbreviation and the AAA is the three-letter abbreviation for your company (breweries only). The state abbreviation in your permit/registry number must match what was entered in the state field for your premise address. The ##### represents the numerical figure in the permit or registry number TTB assigned to you. Do not include leading zeros in your permit or registry numbers. Do not enter the dashes (“-“), as these will be auto-populated.

You must enter your business name exactly as it appears on your approved TTB permit or registration.

6. Once you have completed all of the required data, click on the liabilities button.
7. The following screen appears:

8. Enter the amount of tax. You will only be permitted to enter an amount of tax on the line(s) that correspond to your permit/registry number.

9. Enter the amount of the “Actual Payment With This Return”, which should equal the amount you are paying with this return, regardless of the payment method selected.

10. Click the *adjustments* button, even if you do not have adjustments.
11. The following screen appears:

12. Enter a brief explanation for your adjustments. If you have no adjustments, enter “none” in Schedule A (column a – Line 21) and Schedule B (column a – Line 30).

13. Once you have entered all of your adjustments, click on the **liabilities** button.
