Formulas Online Email Notification

Recently, we deployed a new version of Formulas Online. This new software processed a number of backlogged email messages and sent them to Formulas Online users. As a result we temporarily suspended email notifications. We have now reactivated email notifications for actions you performed in the system from March 1, 2012, to date. If you requested access to the Formulas Online system from February 1, 2012, to the present, you will receive email notification if your User ID was activated.

We apologize for any inconvenience that this may cause. If you have any questions, please contact the TTB Help Desk at (866) 240-0835 or TTB.Helpdesk@ttb.gov.

Thank you.
