BILLING CODE 4160-01-M

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 9

[T.D. ATF-134; Re: Notice No. 429]

Merritt Island Viticultural Area

AGENCY: Bureau of Alcohol, Tobacco and Firearms, Treasury.

ACTION: Final rule, Treasury decision.

SUMMARY: This final rule establishes a viticultural area in Yolo County, California, known as "Merritt Island." The establishment of viticultural areas and the subsequent use of viticultural area names as appellations of origin in wine labeling and advertising will help consumers better identify wines they purchase. The use of this viticultural area as an appellation of origin will also help winemakers distinguish their products from wines made in other areas.

EFFECTIVE DATE: June 16, 1983.

FOR FURTHER INFORMATION CONTACT: Lori D. Weins, FAA, Wine, and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, NW., Washington, DC 20226 [202-566-7626].

SUPPLEMENTARY INFORMATION:

Background

On August 23, 1978, ATF published Treasury Decision ATF-53 [43 FR 37672, 54624] revising regulations in 27 CFR Part 4. These regulations allow the establishment of definitive viticultural areas. The regulations also allow the name of an approved viticultural area to be used as an appellation of origin on wine labels and in wine advertisements.

On October 2, 1979, ATF published Treasury Decision ATF-60 [44 FR 56692] which added a new Part 9 to 27 CFR, providing for the listing of approved American viticultural area, the names of which may be used as appellations of origin.

Section 4.25a(e)(1), Title 27, CFR defines an American viticultural area as a delimited grape-growing region distinguishable by geographic features. Section 4.25a(e)(2) outlines the procedure for proposing an American viticultural area. Any interested person may petition ATF to establish a grape-growing region as a viticultural area.

Mr. Chris Bogle, Secretary of Bogle Vineyards, Incorporated, located on Merritt Island, petitioned ATF for the establishment of a viticultural area in Yolo County, California, to be known as "Merritt Island." In response to this Petition, ATF published a notice of proposed rulemaking [Notice No. 429] in the Federal Register on November 3, 1982 [47 FR 49866] proposing the establishment of the Merritt Island viticultural area.

Comments

No comments were received during the 45-day comment period. On the basis of the information contained in the petition, ATF is establishing the Merritt Island viticultural area as proposed. The boundary of the Merritt Island viticultural area is described in § 9.68.

Evidence of the Name

The name of the area, Merritt Island, was well documented by the petitioner. After evaluating the petition, ATF believes that Merritt Island had a unique historical identity and that the viticultural area is known by the name "Merritt Island."

Geographical Evidence

The petition contained geographical and climatic information which distinguished the area from surrounding areas, based on the fact that:

(a) The area consists of an island, bounded on the west and north by Elk Slough, Sutter Slough on the south, and the Sacramento River on the east.

(b) The type of soil primarily consists of Columbian Sandy Loam, while areas to the east consist of Sierra loam type soils, areas to the west consist of adobe and clay type soils, and areas to the south consist of Peat Dirt (an organically structured soil).

(c) The climate of Merritt Island is tempered by cooling southwesterly breezes from the Carquinez Straits near San Francisco. The influence of this breeze creates a 10 degree Fahrenheit

cooler median temperature than the City of Sacramento, located six miles north. The climate of the islands to the south are often influenced by fog cover from San Francisco Bay, whereas, Merritt Island very seldom receives this fog cover since it is the northern most island in the Sacramento Delta.

Executive Order 12291

In compliance with Executive Order 12291, ATF has determined that this regulation is not a "major rule" since it will not result in—

(a) An annual effect on the economy of \$100 million or more;

(b) A major increase in cost or prices for consumers, individual industries, Federal, State, or local government agencies, or geographical regions; or

(c) Significant adverse effects on competition, employment, investment, productivity, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Regulatory Flexibility Act

The provisions of the Regulatory Flexibility Act relating to a final regulatory flexibility analysis (5 U.S.C. 604) are not applicable to this final rule because it will not have a significant economic impact on a substantial number of small entities. The final rule will not impose, or otherwise cause, a significant increase in the reporting, recordkeeping or other compliance burdens on a substantial number of small entities. The final rule is not expected to have significant secondary or incidental effects on a substantial number of small entities.

Accordingly, it is hereby certified under the provisions of Section 3 of the Regulatory Flexibility Act (5 U.S.C. 605(b)), that this final rule will not have a significant economic impact on a substantial number of small entities.
