

## COLAs Online

### What's New in COLAs Online 3.12.2 (Industry Members)

The following enhancement in functionality and interface is included in Version 3.12.2 of the COLAs Online system:

- **The Reasons for Correction display on all steps** – You can now see the reasons for correction while editing any available step of an application that has been returned for correction, displayed on the right hand of your screen in a pop-up window. The window will stay in place as you scroll up and down and you may resize, move or close it at any moment.

The screenshot displays the COLAs Online application interface. At the top, the TTB logo and the text "ALCOHOL AND TOBACCO TAX AND TRADE BUREAU U.S. Department of the Treasury" are visible. The main heading is "COLAs Online" with the subtitle "ALCOHOL AND TOBACCO TAX AND TRADE BUREAU". Below this, the text reads "TTB F 5100.31: Application For and Certification/Exemption of Label/Bottle Approval". The current step is "Create Application Step 2 of 3 : COLA Information". A navigation bar shows "Step 1 | Step 2 | Step 3 | Verify Application".

The "Application Information" section includes a "Serial Number" field with a red question mark icon, a value of "16-3424", and a note: "Four alphanumeric characters of your choice." Below this is a "Plant Registry/Basic Permit/Brewer's No." field with a red question mark icon.

A "Reasons for Correction" pop-up window is open on the right side of the screen. It has a red header with a close button (X). The text inside the window states: "The Application needs correction for the reasons listed below. Click on the 'Make Corrections' link above to edit the information from your original submission. All corrections must be completed by 03/24/2016 or the application will be automatically rejected." Below this text is a table with two columns: "Reason" and "Additional Information". The "Reason" column contains the text: "The company address that appears on your labels does not match your Basic Permit/Brewer's Notice/Plant Registry, 27 CFR 7.25 (c)". The "Additional Information" column is empty. Below the table is a "TTB Comments" section with the text: "No Comments Entered."
