You may view the status of your eApplications in COLAs Online through the Home: My eApplications page. You may also view the status of your eApplications through the Search Results: eApplications page by performing a Search for eApplications. There is a description of the eApplication statuses provided at the end of this document.

Home: My eApplications

The Home: My eApplications page is your home page and displays the list of your most recent 300 e-filed applications (submitted or saved but not submitted). The eApplications initially display in descending order by Status Date, regardless of status, but may be sorted by selecting the column headings. Figure 1 details the Home: My eApplications page.

The statuses display next to the eApplications in the Status column.
The following available statuses display next to the eApplications in the Status column:

- **Approved** – This status indicates a final action regarding a particular application. Applications enter this status when both the application and the labels meet all applicable requirements. At this point an application becomes a Certificate. This status authorizes the Certificate holder to either bottle or remove from Customs custody alcohol beverages that bear labels identical to those shown on the Certificate.

- **Assigned** – Applications enter this status when they are assigned to a specialist and the internal evaluation begins.

- **Corrected** – Applications change from “Needs Correction” to “Corrected” after the applicant makes the required revisions and resubmits the application back to TTB for review. Once the review process starts the status changes to “Assigned,” once again until the internal evaluation is complete.

- **Expired** – While generally “Approved” Certificates never expire, under certain limited conditions Certificates are given an expiration date by TTB at the time of approval. The status of an “Approved” Certificate changes to “Expired” when the expiration date is reached.

- **Needs Correction** – Applications in this status have been reviewed by TTB but cannot be approved as submitted. The application is returned to the submitter with a list of corrections that need to be made to either the application or to the label itself. The submitter has 30 days to make the corrections. If the application is not returned to TTB within 30 days from the date the application is returned then the status changes to “Rejected.” If the submitter makes the corrections and resubmits the application to TTB within 30 days, the status changes to “Corrected.” Applications in the “Needs Correction” status may also be “Withdrawn” by the applicant.

- **Received** – Applications enter this status when they are received by TTB and remain in this status until internal evaluation begins. Once the evaluation process starts the status changes to “Assigned,” until the internal evaluation is complete.

- **Rejected** – This status indicates a final TTB action regarding a particular application. Paper applications enter this status when initial TTB review discloses that either the application or the label does not comply with Federal requirements. Electronic applications are generally returned for correction rather than rejected; however, an electronic application may be rejected if all the necessary corrections are not made to an application that was returned for correction. Electronic applications that have been returned for correction enter this status if the application is not resubmitted to TTB within 30 days. A rejection does not restrict the ability to resubmit a new application with corrected labels at a later date.

- **Revoked** – “Approved” Certificates will change to this status when TTB rescinds approval because either the labeling laws or regulations have changed rendering the Certificate invalid or the Certificate was approved by TTB in error.

- **Saved not submitted** – An application in this status has been either completely or partially created, but has not yet been submitted to TTB for review. TTB cannot view applications in this status. An application may only remain in this status for up to 30
days. After 30 days in this status the application is automatically deleted. If the application is submitted, the status changes to “Received.”

- **Surrendered** – “Approved” Certificates will change to this status when the Certificate holder voluntarily communicates to TTB that they no longer need the Certificate. Generally “Approved” Certificates do not expire, however, TTB encourages all industry members to surrender obsolete Certificates either by written communication for paper filed applications or electronically if applications were e-filed.

- **Withdrawn** – This status indicates that the applicant withdrew the application before TTB took final action. A withdrawal does not restrict the ability to resubmit a new application at a later date.
