SUMMARY: This notice extends the comment period for Notice No. 946, a notice of proposed rulemaking published in the Federal Register on June 27, 2002, for an additional 30 days. The proposed rule revises the regulations regarding the labeling and advertising of malt beverages in accordance with plain language principles. These changes also incorporate minor technical amendments. There are no changes in the requirements of the existing regulations. We are making this change in order to more clearly communicate the regulations' existing requirements.

DATES: We must receive your comments on or before September 25, 2002.

See the Public Participation section below for information on alternative methods of commenting, and for information on how and where to review Notice No. 946 and the comments received in response to that notice.

SUPPLEMENTARY INFORMATION:

Background

As the proposed revision only adopts the plain language style, there is no change in the intent of the regulations from the existing part 7. There are no changes to the authority, scope, or effect of the regulations. The authority for the regulations in part 7 remains 27 U.S.C. 205.

We issued the original requirements in part 7 after an opportunity for notice and comment during the rulemaking process. Since we are proposing to make only stylistic changes and minor technical amendments, we are limiting comments on the proposed rule to the plain language issue.

Public Participation

We request comments from all interested persons. We will carefully consider all comments we receive on or before September 25, 2002. We will give the same consideration to comments we receive after that date if it is practical to do so, but we can give assurance of consideration only to comments we receive on or before September 25, 2002.

Comments Limited to Plain Language Issue

Because we only propose to amend these regulations to conform to the plain language style, we are limiting comments to the effects of this change in the regulations' language. Accordingly, comments should be limited to the following questions:

- Does this language have the same effect as the old regulations?
- Does the plain language format affect the operation of the regulations?
- Is this new style helpful or useful?

We will not consider in this rulemaking any comments that go beyond this scope.

Will ATF Treat My Comments as Confidential?

We will not recognize any material in comments as confidential, and your comments may be disclosed to the public. You should not include any material that you consider to be confidential or inappropriate for public disclosure. We may disclose the name of any person submitting a comment.
