## **Bureau Certifying Official**

Amy Henke Information Systems Security Officer/Chief Privacy Officer Alcohol and Tobacco Tax and Trade Bureau Department of the TTB

The mission of the Alcohol and Tobacco Tax and Trade Bureau (TTB) is to promote the financial integrity and operational efficiency of the federal government through exceptional accounting, financing, collections, payments, and shared services.

This Privacy and Civil Liberties Impact Assessment (PCLIA) is a public document and will be made available to the general public via the TTB Privacy and Civil Liberties Impact Assessment (PCLIA) webpage (PCLIA WEBPAGE).

#### **Section 1: Introduction**

It is the policy of the Department of the TTB ("TTB" or "Department") and its Bureaus to conduct a Privacy and Civil Liberties Impact Assessment ("PCLIA") when <u>personally identifiable information</u> ("PII") is maintained in a system or by a project. PCLIAs are required for all systems and projects that collect, maintain, or disseminate <u>PII</u>, regardless of the manner in which the information is retrieved.

This assessment is being completed pursuant to Section 208 of the E-Government Act of 2002 ("E-Gov Act"), 44 U.S.C. § 3501, Office of the Management and Budget ("OMB") Memorandum 03-22, "OMB Guidance for Implementing the Privacy Provisions of the E-Government Act of 2002," and TTB Directive 25-07, "Privacy and Civil Liberties Impact Assessment (PCLIA)."

#### **Section 2: Definitions**

**Agency** – means any entity that falls within the definition of the term "executive agency" as defined in 31 U.S.C. § 102.

**Certifying Official** – The Bureau Privacy and Civil Liberties Officer(s) who certify that all requirements in TD and TD P 25-07 have been completed so a PCLIA can be reviewed and approved by the TTB Deputy Assistant Secretary for Privacy, Transparency, and Records.

**Collect (including "collection")** – means the retrieval, receipt, gathering, or acquisition of any PII and its storage or presence in a TTB system. This term should be given its broadest possible meaning.

Contractors and service providers – are private companies that provide goods or services under a contract with the Department of the TTB or one of its bureaus. This includes, but is not limited to, information providers, information processors, and other organizations providing information system development, information technology services, and other outsourced applications.

**Data mining** – means a program involving pattern-based queries, searches, or other analyses of 1 or more electronic databases, where – (a) a department or agency of the federal government, or a non-federal entity acting on behalf of the federal government, is conducting the queries, searches, or other analyses to discover or locate a predictive pattern or anomaly indicative of terrorist or criminal activity on the part of any individual or individuals; (b) the queries, searches, or other analyses are not subject-based and do not use personal identifiers of a specific individual, or inputs associated with a specific individual or group of individuals, to retrieve information from the database or databases; and (c) the purpose of the queries, searches, or other analyses is not solely – (i) the detection of fraud, waste, or abuse in a government agency or program; or (ii) the security of a government computer system.

**Disclosure** – When it is clear from its usage that the term "disclosure" refers to records provided to the public in response to a request under the Freedom of Information Act (5 U.S.C. § 552,

"FOIA") or the Privacy Act (5 U.S.C. § 552a), its application should be limited in that manner. Otherwise, the term should be interpreted as synonymous with the terms "sharing" and "dissemination" as defined in this manual.

**Dissemination** – as used in this manual, is synonymous with the terms "sharing" and "disclosure" (unless it is clear from the context that the use of the term "disclosure" refers to a FOIA/Privacy Act disclosure).

**E-Government** – means the use of digital technologies to transform government operations to improve effectiveness, efficiency, and service delivery.

**Federal information system** – means a discrete set of information resources organized for the collection, processing, maintenance, transmission, and dissemination of information owned or under the control of a federal agency, whether automated or manual.

**Final Rule** – After the NPRM comment period closes, the agency reviews and analyzes the comments received (if any). The agency has the option to proceed with the rulemaking as proposed, issue a new or modified proposal, or withdraw the proposal before reaching its final decision. The agency can also revise the supporting analyses contained in the NPRM (e.g., to address a concern raised by a member of the public in response to the NPRM).

**Government information** – means information created, collected, used, maintained, processed, disseminated, or disposed of by or for the federal government.

**Individual** – means a citizen of the United States or an alien lawfully admitted for permanent residence. If a question does not specifically inquire about or an issue does not clearly involve a <u>Privacy Act system of records</u>, the term should be given its common, everyday meaning. In certain contexts, the term individual may also include citizens of other countries who are covered by the terms of an international or other agreement that involves information stored in the system or used by the project.

**Information** – means any representation of knowledge such as facts, data, or opinions in any medium or form, regardless of its physical form or characteristics. This term should be given the broadest possible meaning. This term includes, but is not limit to, information contained in a **Privacy Act system of records**.

Information technology (IT) – means any equipment or interconnected system or subsystem of equipment, used in the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the executive agency, if the equipment is used by the executive agency directly or is used by a contractor under a contract with the executive agency that requires the use: (i) of that equipment; or (ii) of that equipment to a significant extent in the performance of a service or the furnishing of a product. It includes computers, ancillary equipment (including imaging peripherals, input, output, and storage devices necessary for security and surveillance), peripheral equipment designed to be controlled by the central processing unit of a computer, software, firmware and similar procedures, services (including support services), and related

resources; but does not include any equipment acquired by a federal contractor incidental to a federal contract. Clinger-Cohen Act of 1996, 40 U.S.C. § 11101(6).

**Major Information system** – embraces "large" and "sensitive" information systems and means "a system or project that requires special management attention because of its importance to an agency mission; its high development, operating, or maintenance costs; or its significant role in the administration of agency programs, finances, property, or other resources." OMB Circular A-130, § 6.u. This definition includes all systems that contain <u>PII</u> and are rated as "MODERATE or HIGH impact" under Federal Information Processing Standard 199.

National Security systems – a telecommunications or information system operated by the federal government, the function, operation or use of which involves: (1) intelligence activities, (2) cryptologic activities related to national security, (3) command and control of military forces, (4) equipment that is an integral part of a weapon or weapons systems, or (5) systems critical to the direct fulfillment of military or intelligence missions, but does not include systems used for routine administrative and business applications, such as payroll, finance, logistics, and personnel management. Clinger-Cohen Act of 1996, 40 U.S.C. § 11103.

**Notice of Proposed Rule Making (NPRM)** – the Privacy Act (Section (J) and (k)) allow agencies to use the rulemaking process to exempt particular systems of records from some of the requirements in the Act. This process is often referred to as "notice-and-comment rulemaking." The agency publishes an NPRM to notify the public that the agency is proposing a rule and provides an opportunity for the public to comment on the proposal before the agency can issue a final rule.

**Personally Identifiable Information (PII)**—any information that can be used to distinguish or trace an individual's identity, either alone or when combined with other personal or identifying information that is linked or linkable to a specific individual.

#### Privacy and Civil Liberties Impact Assessment (PCLIA) – a PCLIA is:

- (1) a *process* conducted to: (a) identify privacy and civil liberties risks in systems, programs, and other activities that maintain <u>PII</u>; (b) ensure that information systems, programs, and other activities comply with legal, regulatory, and policy requirements; (c) analyze the privacy and civil liberties risks identified; (d) identify remedies, protections, and alternative or additional privacy controls necessary to mitigate those risks; and (e) provide notice to the public of privacy and civil liberties protection practices.
- (2) a *document* that catalogues the outcome of that privacy and civil liberties risk assessment process.

**Protected Information** – as the term is used in this PCLIA, protected information the same definition given to that term in TD 25-10, section 4.

**Privacy Act Record** – any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, the individual's education, financial

transactions, medical history, and criminal or employment history and that contains the individual's name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph. 5 U.S.C. § 552a (a)(4).

**Reviewing Official** – The Deputy Assistant Secretary for Privacy, Transparency, and Records who reviews and approves all PCLIAs as part of her/his duties as a direct report to the TTB Senior Agency Official for Privacy.

Routine Use – with respect to the disclosure of a record outside of TTB (i.e., external sharing), the sharing of such record for a purpose which is compatible with the purpose for which it was collected 5 U.S.C. § 552a(a)(7).

**Sharing** – any TTB initiated distribution of information to government employees or agency contractors or grantees, including intra- or inter-agency transfers or exchanges of TTB information, regardless of whether it is covered by the Privacy Act. It does not include responses to requests for agency records under FOIA or the Privacy Act. It is synonymous with the term "dissemination" as used in this assessment. It is also synonymous with the term "disclosure" as used in this assessment unless it is clear from the context in which the term is used that it refers to disclosure to the public in response to a request for agency records under FOIA or the Privacy Act.

**System** – as the term used in this manual, includes both federal information systems and information technology.

**System Owner** – Official responsible for the overall procurement, development, integration, modification, or operation and maintenance of a system.

**System of Records** – a group of any records under the control of TTB from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual. 5 U.S.C. § 552a (a)(5).

**System of Records Notice** – Each agency that maintains a system of records shall publish in the *Federal Register* upon establishment or revision a notice of the existence and character of the system of records, which notice shall include: (A) the name and location of the system; (B) the categories of individuals on whom records are maintained in the system; (C) the categories of records maintained in the system; (D) each routine use of the records contained in the system, including the categories of users and the purpose of such use; (E) the policies and practices of the agency regarding storage, retrievability, access controls, retention, and disposal of the records; (F) the title and business address of the agency official who is responsible for the system of records; (G) the agency procedures whereby an individual can be notified at her/his request if the system of records contains a record pertaining to him; (H) the agency procedures whereby an individual can be notified at her/his request how she/he can gain access to any record pertaining to him contained in the system of records, and how she/he can contest its content; and (I) the categories of sources of records in the system. 5 U.S.C. § 552a (e)(4).

#### **Section 3: System Overview**

#### **Section 3.1: System/Project Description and Purpose**

The purpose of the CBMA Importer Claims module is to allow importers to submit claims for overpayment refund benefits.

PII is used to register users and tie them to an Importer company.

It supports the mission of the Bureau by allowing for claims reimbursement processes to be worked within the application.

#### **Section 3.2: Authority to Collect**

The authorities for operating this system or performing this project are:

The authorities for operating this system or performing this project are the Internal Revenue Code of 1986 (IRC), as amended, at 26 U.S.C. chapter 51 (distilled spirits, wine, and beer), chapter 52 (tobacco products, processed tobacco, and cigarette papers and tubes), and sections 4181-4182 (firearms and ammunition excise taxes), and the Federal Alcohol Administration Act (FAA Act, 27 U.S.C. chapter 8). Under its IRC authorities, TTB collects the Federal excise taxes levied on alcohol, tobacco, firearms, and ammunition products and the special occupational taxes levied on certain tobacco industry members. Under these IRC and the FAA Act authorities, TTB administers the Federal permit, registration, or notice requirements that apply to alcohol and tobacco industry members, as well the Federal requirements that apply to the production, labeling, and marketing of alcohol beverage products.

#### **Section 4.1: Relevant and Necessary**

Se	ection 4.1(a) Please check all of the following that are true:
1.	☐ None of the PII maintained in the system or by the project is part of a Privacy Act
	system of records;

2. $\square$ All of the PII maintained in the system or by the project is part of a system of records
and none of it is exempt from the <u>Privacy Act</u> relevant and necessary requirement;
3. $\square$ All of the <u>PII</u> maintained in the system or by the project is part of a <u>system of records</u>
and all of it is exempt from the <u>Privacy Act</u> relevant and necessary requirement;
4. $\boxtimes$ Some, but not all, of the <u>PII</u> maintained in the system or by the project is part of a
system of records and the records to which the Privacy Act applies are exempt from the
relevant and necessary requirement; and
5. Some, but not all, of the PII maintained in the system or by the project is part of a system
of records and none of the records to which the Privacy Act applies are exempt from the
relevant and necessary requirement.
Section 4.1(b) $\boxtimes$ Yes $\square$ No $\square$ N/A With respect to $\underline{PII}$ maintained in the system or by the
project that is subject to the Privacy Act's relevant and necessary requirement, was an
assessment conducted prior to collection (e.g., during Paperwork Reduction Act analysis) to
determine which <u>PII</u> types (see <u>Section 4.2</u> below) were relevant and necessary to meet the
system's or project's mission requirements?
<u>Section 4.1(c)</u> $\boxtimes$ Yes $\square$ No $\square$ N/A With respect to $\underline{\text{PII}}$ currently maintained in the system or
by the project that is subject to the Privacy Act's relevant and necessary requirement, is the PII
limited to only that which is relevant and necessary to meet the system's or project's mission
requirements?
Section 4.1(d) $\boxtimes$ Yes $\square$ No $\square$ N/A With respect to $\underline{PII}$ maintained in the system or by the
project that is subject to the Privacy Act's relevant and necessary requirement, is there a
process to continuously reevaluate and ensure that the <u>PII</u> remains relevant and necessary?

#### Section 4.2: PII and/or information types or groupings

To perform their missions, federal agencies must necessarily collect various types of information. The checked boxes below represent the types of information maintained in the system or by the project. Information identified below is used by the system or project to fulfill the purpose stated in Section 3.2 – Authority to Collect.

#### **Use of Social Security Numbers**

Social Security numbers ("SSNs") are commonly used by identity thieves to commit fraudulent acts against individuals. The SSN is one data element that has a heightened ability to harm the individual and requires more protection when used. Therefore, in an effort to reduce risk to individuals and federal agencies, government-wide initiatives aimed at eliminating unnecessary collection, use, and display of SSN have been underway since OMB required agencies to review their SSN practices in 2007.

In addition, the <u>Privacy Act</u> provides that: "It shall be unlawful for any federal, state or local government agency to deny to any individual any right, benefit, or privilege provided by law because of such individual's refusal to disclose his social security account number." Pub. L. No. 93–579, § 7. This provision does not apply to: (1) any disclosure which is required by federal statute; or (2) any disclosure of an SSN to any federal, state, or local agency maintaining a <u>system of records</u> in existence and operating before January 1, 1975, if such disclosure was required under statute or regulation adopted prior to such date to verify the identity of an individual. *Id.* at § 7(a)(2)(A)-(B).

☐There is a statute that expressly authorizes its collection.

### Section 5: Maintenance, use, and sharing of the information

The following sections require a clear description of the system's or project's use of information.

# Section 5.1: Describe how and why the system or project uses the information it collects and maintains

Please describe all of the uses of the information types and groupings collected and maintained by the system or project (see <u>Section 4.2</u>), including a discussion of why the information is used for this purpose and how it relates to the mission of the bureau or office that owns the system.

As noted in section 3.1, The purpose of the Foreign Producer module is to allow foreign producers of alcohol to register in the system and make assignments to US based importers. The importers need these assignments in order to claim a tax reimbursement through the myTTB application.

It supports the mission of the Bureau by allowing for secure user authentication and authorization in order to access and navigate within TTB application.

# Collecting Information Directly from the Individual When Using it to Make Adverse Determinations About Them

The <u>Privacy Act</u> requires that federal agencies "collect information to the greatest extent practicable directly from the subject individual when the information may result in adverse determinations about an individual's rights, benefits, and privileges under federal programs." 5 U.S.C. § 552a(e)(2).

Section 5.1(a) $\square$ Yes $\boxtimes$ No Is it possible that the information maintained in the system or
by the project may be used by TTB to make an adverse determination about an individual's rights, benefits, and privileges under federal programs (e.g., decisions about whether the individual will receive a financial benefit, get a clearance or access to a TTB facility, obtain employment with TTB)?
Section 5.1(b) $\Box$ Yes $\boxtimes$ No Is it possible that TTB will share information maintained in the system or by the project with a third party external to the Department that will use the information to make an adverse determination about an individual's rights, benefits, and privileges under federal programs?
Section 5.1(c) □Yes ⋈ No □N/A If information could potentially be used to make an adverse determination about an individual's rights, benefits, and privileges under federal programs, does the system or project collect information (to the greatest extent practicable) directly from the individual?

#### **Data Mining**

As required by Section 804 of the <u>Implementing the 9/11 Commission Recommendations Act of 2007</u> ("9-11 Commission Act"), TTB reports annually to Congress on its data mining activities. For a comprehensive overview of TTB's data mining activities, please review the Department's Annual Privacy reports available at: http://www.TTB.gov/privacy/annual-reports.

# Section 5.2: Ensuring accuracy, completeness, and timeliness of information collected, maintained, and shared

#### Exemption from Accuracy, Relevance, Timeliness, and Completeness Requirements

The <u>Privacy Act</u> requires that federal agencies "maintain all records which are used by the agency in making any determination about any individual with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination." 5 U.S.C. § 552a(e)(5). If a particular <u>system of records</u> meets certain requirements (including the <u>NPRM</u> process defined in Section 2 above), an agency may exempt the <u>system of records</u> (or a portion of the records) from this requirement.

Section 5.2(a)  $\boxtimes$  Yes  $\square$  No Is all or any portion of the information maintained in the system or by the project: (a) part of a <u>system of records</u> and (b) exempt from the accuracy, relevance, timeliness, and completeness requirements in sections (e)(5) of the <u>Privacy Act</u>?

#### **Computer Matching**

The Computer Matching and Privacy Protection Act of 1988 amended the <u>Privacy Act</u>, imposing additional requirements when <u>Privacy Act systems of records</u> are used in computer matching programs.

Matching programs must be conducted pursuant to a matching agreement between the source and recipient agencies. The matching agreement describes the purpose and procedures of the matching **and** establishes protections for matching records.

Section 5.2(b) $\square$ Yes $\boxtimes$ No Is any of the information maintained in the system or by the project (a) part of a system of records and (b) used as part of a matching program?
Section 5.2(c) $\square$ Yes $\boxtimes$ No $\square$ N/A Is there a matching agreement in place that contains the information required by Section (o) of the Privacy Act?
Section 5.2(d) $\square$ Yes $\boxtimes$ No $\square$ N/A Are assessments made regarding the accuracy of the records that will be used in the matching program?
Section 5.2(e) ☐ Yes ☒ No ☐N/A Does the bureau or office that owns the system or project independently verify the information, provide the individual notice and an opportunity to contest the findings, or obtain Data Integrity Board approval in accordance with Section (p) of the Privacy Act before taking adverse action against the individual?

**Ensuring Fairness in Making Adverse Determinations About Individuals** 

Federal agencies are required to "maintain all records which are used by the agency in making any determination about any individual with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination." 5 U.S.C. § 552a(e)(5). This requirement also applies when merging records from two or more sources where the merged records are used by the agency to make any determination about any individual.

Section 5.2(f)  $\boxtimes$  Yes  $\square$  No With respect to the information maintained in the system or by the project, are steps taken to ensure all information used to make a determination about an individual is maintained with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination?

#### **Merging Information About Individuals**

Section 5.2(g) $\boxtimes$ Yes $\square$ No Is information maintained in the system or by the project merged with electronic or non-electronic information from internal or external sources (e.g., other files or systems)?
Section 5.2(h) ☐ Yes ☒ No ☐N/A Once merged, is the information used in making determinations about individuals (e.g., decisions about whether the individual will receive a financial benefit or payment, get a clearance or access to a TTB facility, obtain employment with TTB, etc.)?
Section 5.2(i) $\boxtimes$ Yes $\square$ No $\square$ N/A Are there documented policies or procedures for how information is merged?
Section 5.2(j) ☐ Yes ☐ No ☒ N/A Do the documented policies or procedures address how to proceed when partial matches (where some, but not all of the information being merged matches a particular individual) are discovered after the information is merged?
Section 5.2(k) $\square$ Yes $\square$ No $\boxtimes$ N/A If information maintained in the system or by the project is used to make a determination about an individual, are steps taken to ensure the accuracy, relevance, timeliness, and completeness of the information as is reasonably necessary to assure fairness to the individual?

#### Policies and Standard Operating Procedures or Technical Solutions Designed to Ensure Information Accuracy, Completeness, and Timeliness

Section 5.2(1)  $\square$  Yes  $\square$  No  $\boxtimes$  N/A If information maintained in the system or by the project is used to make any determination about an individual (even if it is an exempt system of records), are there documented policies or standard operating procedures for the system or project that address the accuracy, completeness, and timeliness of the information?

Section 5.2(m) ☐ Yes ☒ No Does the system or project use any software or other technical solutions designed to improve the accuracy, completeness, and timeliness of the information used to make an adverse determination about an individual's rights, benefits, and/or privileges (regardless of if it is an exempt system of records)?			
Accuracy, Completeness, and Timeliness of Information Received from the Source			
Section 5.2(n) $\square$ Yes $\boxtimes$ No Did TTB or the bureau receive any guarantee, assurance, or other information from any information source(s) regarding the accuracy, timeliness and completeness of the information maintained in the system or by the project?

Section 5.2(0) ⊠ Yes □No □N/A Where feasible and appropriate, is there a process in place for disseminating corrections of or amendments to the PII maintained in the system or by the project to all internal and external information-sharing partners?			
Section 5.2(p) ⊠ Yes □No □ N/A Where feasible and appropriate, does the process for disseminating corrections or amendments include notifying the individual whose information is corrected or amended?			
Section 5.3: Information sharing within the Department of the TTB			
Internal Information Sharing			
Section 5.3(a) □Yes ☒ No Is PII maintained in the system or by the project shared with other TTB bureaus?			
Section 5.3(b)   ✓ Yes   No Does the TTB bureau or office that receives the PII limit access to those TTB officers and employees who have a need for the PII in the performance of their official duties (i.e., those who have a "need to know")?			
Memorandum of Understanding (MOU)/Other Agreements Limiting TTB's Internal Use/Disclosure of PII			
Section 5.3(c) $\boxtimes$ Yes $\square$ No $\square$ N/A Is any of the PII maintained in the system or by the			
project subject to the requirements of a Memorandum of Understanding or other agreement (e.g., agreement with another federal or state agency that provided the information to the TTB or subject to an international agreement or treaty) that limits or places conditions on TTB's internal use, maintenance, handling, or disclosure of the PII?			

# Section 5.4: Information sharing with external (i.e., outside TTB) organizations and individuals

## **External Information Sharing** Section 5.4(a) $\boxtimes$ Yes $\square$ No Is PII maintained in the system or by the project shared with agencies, organizations, or individuals external to TTB? **Accounting of Disclosures** Section 5.4(b) $\boxtimes$ Yes $\square$ No $\square$ N/A With respect to records maintained in the system or by the project that are subject to the Privacy Act, do you maintain a paper or electronic log or other record of the date, nature, and purpose of each disclosure (not including intra-agency disclosures and FOIA disclosures) of a record to any person or to another agency (outside of TTB) and the name and address of the person or agency to whom the disclosure is made? See 5 U.S.C § 552a(c). Section 5.4(c) $\square$ Yes $\square$ No $\boxtimes$ N/A If you do not keep a running tabulation of every disclosure at the time it is made, are you able to reconstruct an accurate and complete accounting of disclosures so as to be able to respond to Privacy Act requests in a timely fashion? Section 5.4(g) □Yes ☒ No In addition to the Privacy Act, are there any other statutory or regulatory restrictions on the sharing of any of the PII maintained in the system or by the project (e.g., 26 U.S.C § 6103 for tax returns and return information)?				
Memorandum of Understanding Related to External Sharing				
Section 5.4(h)   ✓ Yes □No □ N/A Has TTB (including bureaus and offices) executed a Memorandum of Understanding, or entered into any other type of agreement, with any external agencies, organizations, or individuals with which/whom it shares PII maintained in the system or by the project?				
Memorandum of Understanding Limiting TTB's Use or Disclosure of PII				
Section 5.4(i) $\Box$ Yes $\boxtimes$ No Is any of the PII maintained in the system or by the project subject to the requirements of a Memorandum of Understanding or other agreement (e.g., agreement with another federal or state agency, an international agreement or treaty, or contract with private vendor that provided the information to TTB or one of its bureaus) that limits or places conditions on TTB's internal use or external (i.e., outside TTB) sharing of the PII?				
Memorandum of Understanding Limiting External Party's Use or Disclosure of PII				
Section 5.4(j) □Yes ☒ No Is any of the PII maintained in the system or by the project subject to the requirements of a Memorandum of Understanding or other agreement in which TTB limits or places conditions on an external party's use, maintenance, handling, or disclosure of PII shared by TTB?				
Obtaining Consent Prior to New Disclosures Not Included in the SORN or Authorized by the Privacy Act				
Section 5.4(k) $\square$ Yes $\square$ No $\boxtimes$ N/A Is the individual's consent obtained, where feasible and

#### **Section 6.2: The Paperwork Reduction Act**

The <u>PRA</u> requires OMB approval before a federal agency may collect standardized data from 10 or more respondents within a 12 month period. OMB requires agencies to conduct a PIA (i.e., PCLIA) when initiating, consistent with the <u>PRA</u>, a new electronic collection of PII for 10 or more persons (excluding agencies, instrumentalities, or employees of the federal government).

#### **Paperwork Reduction Act Compliance**

Section 6.2(a)   ✓ Yes   No Does the system or project maintain information obtained from individuals and organizations who are not federal personnel or an agency of the federal government (i.e., outside the federal government)?
Section 6.2(b) ⊠ Yes □No □N/A Does the project or system involve a new collection of information in identifiable form for 10 or more persons from outside the federal government?

Section 6.2(c) □Yes □No ☒ N/A Did the project or system complete an Information

Section 6.3: Records Management - NARA/Federal Records Act Requirements				
Records retention schedules determine the maximum amount of time necessary to retain information in order to meet the needs of the project or system. Information is generally either disposed of or sent to the <u>NARA</u> for permanent retention upon expiration of this period.				
NARA Records Retention Requirements				
Section 6.3(a)   ✓ Yes □No Are the records used in the system or by the project covered by NARA's General Records Schedules ("GRS") or TTB/bureau Specific Records Schedule (SRS)?				
Section 6.3(b) $\square$ Yes $\boxtimes$ No Did NARA approved a retention schedule for the records maintained in the system or by the project?				
Section 6.3(c) ☐ Yes ☐No ☒ N/A If NARA did not approve a retention schedule for the records maintained in the system or by the project and the records are not covered by NARA's GRS or TTB/bureau SRS, has a draft retention schedule (approved by all applicable TTB and/or Bureau officials) been developed for the records used in this project or system?				
All TTB owned data maintained by this system is retained and destroyed in accordance with the TTB Data Management Policy. All TTB owned records schedules and categories within the TTB Data Management Policy are approved by NARA.				
Section 6.4: E-Government Act/NIST Compliance				
The completion of <u>Federal Information Security Modernization Act (FISMA)</u> Security Assessment & Authorization (SA&A) process is required before a federal information system may receive Authority to Operate ("ATO"). Different security requirements apply to National Security Systems.
