Do whom it may concern:
Please have Virginia's
Eastern Shore established
as a Viticultural Area.
Approval means that
wine from eastern shore
grapes would have the
appellation of origin
Virginia's Eastern Shore
than broad Virginia appellation which is
used now. Thank you. Vickie Stefanek Tampa, FL

To the reviewers -

No comments were received during the 45-day comment period, so this document was prepared for final, rather than concurrent review.

The two attached comments were mailed after the 10/2/90 close of the comment period. Neither of them provides any new information, so I did not redraft the TD.

Marjorie Dandas

October 27, 1990,

Dear Sirs;

This communication is to support the establishment of the Eastern Shore of Virginia as a Viticultural Area separate and distinct from the current Virginia appellation. The Shore has a different climate from that of the rest of the state and, we believe, that climate contributes to grapes and wines superior to those grown on the "mainland". We are interested in the success of the wine industry on the Eastern Shore of Virginia and feel that this action would benefit that industry.

Sincerely,

John G. Calvert
