Some TTB Web Based Applications (i.e., Formulas Online) require that you allow pop-ups. Rather than allow pop-ups for ALL web sites, you may configure pop-up settings for specific web sites.

## **Configure Pop-Up Settings**

1. Select the Tools menu and select **Pop-up Blocker > Pop-up Blocker settings.** 

2. Enter the address of the web site where you want to allow pop-ups in the Address of website to allow field.
