

Permits Online

What's New in Permits Online 3.6 R1 (Industry Members)

September 19, 2013

The following enhancements in functionality and interface are included in Version 3.6 R1 of the Permits Online system:

- **Brewery Information Field Addition** – You may now enter a description in the following Brewery Information field when creating an Original Brewery application in the Permits Online system:

Describe any areas which will be alternated, as well as any areas which are dedicated (never alternated), if any. The description should delineate the brewery premises of all parties and operations as they will exist both during extension and curtailment. The description (as well as the associated Diagrams) must clearly describe and depict all areas, buildings, floors, rooms, equipment and pipelines which are to be subject to alternation in their relative operating sequence. Please note that grain cannot be stored on wine premises (if there is alternation with a winery):

Brewery Information Field Addition

BREWERY INFORMATION

In this section, you will provide information pertaining to your status as a member of a controlled group, estimated production, the description of the brewery, and the security of the brewery premises at the physical location and address where your approved operations will take place.

* Are you a member of a controlled group of breweries? Yes No

Will the controlled group produce more than 60,000 but less than 2,000,000 barrels of beer per year? Yes No

* What is your estimated production in barrels per year? If you produce between 60,000 and 2,000,000 barrels per year, you are entitled to the reduced rate of tax on the first 60,000 barrels removed for consumption or sale. If you produce less than 60,000 barrels per year, you are entitled to the reduced tax rate on all beer removed for consumption or sale:

* Describe each tract of land comprising the brewery, and a listing of each brewery building by its designated letter or number, giving the approximate ground dimensions and the purpose for which ordinarily used:

* Describe the layout of the brewery premises, including the location of the equipment, tanks, bottling lines, doors, windows, loading docks, empty keg storage, and packaged goods storage areas, including dimensions. This description will assist TTB in interpreting the Diagram submitted with the application:

If a brewpub, you must identify the portion of the brewery which will be operated as a tavern by providing the boundaries of the tavern. You must identify areas of the brewery which are accessible to the public and areas which are not. Describe security measures to be used to segregate public areas from non-public areas. Describe in detail the method to be used for measuring beer for the purpose of tax determination. Identify the tanks which will periodically contain tax-determined beer, and any other areas where tax-determined beer will be stored:

Describe any areas which will be alternated, as well as any areas which are dedicated (never alternated), if any. The description should delineate the brewery premises of all parties and operations as they will exist both during extension and curtailment. The description (as well as the associated Diagrams) must clearly describe and depict all areas, buildings, floors, rooms, equipment and pipelines which are to be subject to alternation in their relative operating sequence. Please note that grain cannot be stored on wine premises (if there is alternation with a winery):

* Provide description of the brewery security. Brewery building must be arranged and constructed to give adequate protection to

- **Updated Context-Sensitive Help** – You may now view the updated, context-sensitive help for the Permits Online system by selecting the icon (when available) next to a field.
