Membership in a controlled group and/or making beer pursuant to a license, franchise, or other arrangement may further limit your eligibility for the \$3.50 rate.

This form will automatically multiply the number of barrels entered on line 8, column (a), by \$3.50 to calculate line 8, column (b), the tax liability on that beer.

16-18. For each increasing adjustment:

Column (a). Select the type of increasing adjustment(s):

- i. **Approved alternate method.**

If you have an approved alternate method or procedure under [27 CFR 25.52](#) to employ methods of operations that vary from requirements in [27 CFR part 25](#) or TTB policy related to reporting increasing adjustments on your excise tax return you must provide the assigned control number in column (b).

For information on how to submit a request for an alternate method or procedure or if you have questions about the assigned control number for a previously approved alternate method or procedure, contact TTB's Ruling and Regulations Division (RRD) at 202-453-2265 or <https://www.ttb.gov/contact-rrd>.

Decreasing Adjustments

Decreasing adjustments are allowed for approved alternate methods or procedures; approved TTB claims for credit; beer returned from another brewery in accordance with [27 CFR Part 25, Subpart M](#); beer voluntarily destroyed in accordance with [27 CFR Part 25, subpart N](#); proof of export obtained after voluntary tax payment;

¹ *To obtain official penalty and interest calculations, please contact us at 877-882-3277.

overpayments resulting from the use of the safe harbor rule for the second period in September, in accordance with [27 CFR 25.164a\(b\)](#); and beer lost by fire, casualty, or act of God, as outlined in [27 CFR 25.282](#).

You may take a decreasing adjustment if TTB has approved your claim for credit. Always use the 'Approved Claim for Credit' option when taking a decreasing adjustment for an approved claim for credit even if the type of adjustment fits in another category. If you are eligible to take a decreasing tax adjustment in lieu of submitting a claim for refund of tax or claim for credit, select the appropriate option that describes the activity (e.g., Beer voluntarily destroyed). Claims for refund of tax, remission of tax, and allowance of loss are **never** eligible for decreasing adjustments.

You may **never** take a decreasing adjustment on beer that has not been taxpaid. See [27 CFR 25.281\(a\)](#).

For more information about refund or adjustment of tax or relief from liability, see [27 CFR Part 25, Subpart T](#).

24-25. For each decreasing adjustment:

Column (a). Select the type of decreasing adjustment:

i. Approved alternate method.

If you have an approved alternate method or procedure under [27 CFR 25.52](#) to employ methods of operations that vary from requirements in [27 CFR part 25](#) or TTB policy related to reporting decreasing adjustments on your excise tax return you must provide the assigned control number in column (b).

For information on how to submit a request for an approved alternate method or procedure or have questions about the assigned control number for a previously approved alternate method or procedure, contact TTB's Ruling and Regulations Division (RRD) at 202-453-2265, or <https://www.ttb.gov/contact-rrd>.

ii. Approved claim for credit.

You may take a decreasing adjustment for an approved TTB claim for credit. For purposes of the pilot, you must submit a claim for overpayments. You may take the full amount of the approved claim, or if that amount will exceed the amount of your liability for the period, you may take a portion of the approved amount on one tax return and an additional amount on a subsequent tax return. Claims for refund are not eligible for decreasing adjustment.

iii. Beer lost by fire, theft, casualty, or act of God.

Beer Lost by Fire, Casualty, or Act of God.

You may take a decreasing adjustment on your excise tax return (without interest) for the tax paid on domestically-produced beer that is lost or destroyed or otherwise rendered unmerchantable by fire, casualty, or act of God. See [27 CFR 25.282](#) and [27 CFR 25.284](#)(d) and (e) for requirements for these adjustments.

You may **NOT** take a decreasing adjustment if you submit a claim for refund or relief from liability of tax for beer that is lost or destroyed or otherwise rendered unmerchantable by fire, casualty, or act of God.

Beer Lost by Theft.

For the purposes of this pilot, you may **NOT** take a decreasing adjustment for beer lost by theft. If the appropriate TTB officer is satisfied that the theft occurred before removal from the brewery and without connivance, collusion, fraud or negligence by the brewer, consignor, consignee, bailee, or carrier or their employees or agents, you **MAY** make a claim for relief from liability for the tax.

iv. Beer returned from another brewery.

You **MAY** take a decreasing adjustment for the amount of tax paid on beer returned to the brewery under [27 CFR 25.213](#). See [27 CFR 25.284](#)(b) and (e) for requirements for these adjustments.

You may **NOT** take a decreasing adjustment if you submit a claim for refund or relief from liability of tax for beer returned from another brewery.

v. Beer voluntarily destroyed.**Beer Destroyed Without Return to Brewery.**

You **MAY** take a decreasing adjustment on your excise tax return for the amount of tax paid on beer voluntarily destroyed at a location other than any breweries you operate, in accordance with [27 CFR Part 25, Subpart N—Voluntary Destruction](#). See [27 CFR 25.284](#)(c) and (e) for requirements for these adjustments.

You may **NOT** take a decreasing adjustment if you submit a claim for refund or relief from liability of tax for voluntary destruction of beer at a location other than any breweries you operate.

Tavern on Brewery Premises: Destruction of Taxpaid/Tax Determined Beer Stored on Premises.

Brewers operating a tavern on brewery premises who wish to destroy taxpaid or tax-determined beer which was never removed from brewery premises, must follow the procedures in [27 CFR 25.225](#). Brewers may submit a claim for credit or refund in accordance with [27 CFR 25.283\(c\)](#), but are **not** eligible to take a decreasing adjustment without an approved claim for credit.

vi. Obtained proof of export after tax payment.

If you failed to obtain proof of exportation within 90 days for beer that you exported without payment of tax pursuant to the alternative procedure in [Industry Circular 2004-3](#), you made an increasing adjustment equal to the tax liability, and you subsequently obtain the proof of export, then you may make a corresponding decreasing adjustment in the amount of tax paid. No interest will be paid for subsequent establishment of proof.

vii. Safe harbor rule for taxes due by semimonthly return in September.

If you are a semimonthly filer who utilized the safe harbor rule set forth at [27 CFR 25.164a\(b\)](#) and your accelerated tax payment for the second period in September was more than the actual liability incurred, you should make a decreasing adjustment on the tax return for the final period in September.

If the overpaid amount exceeds the gross amount due on the tax return for the final period in

September, you should file a claim for credit or refund for the remaining balance. If TTB approves a claim for credit, you should follow the instructions for an “Approved claim for credit” for future decreasing adjustments. Claims for refund are not eligible for a decreasing adjustment.

Column (b). Enter supporting information, depending on the type of decreasing adjustment:

- **Approved alternate method:** Enter the control number TTB assigned to your approved alternate method or procedure related to decreasing adjustments.
- **Approved claim for credit:** Insert the claim number of the approved claim.
- **Beer lost, by fire, casualty, or act of God:** Enter the date(s) of the loss.
- **Beer returned from another brewery:** Enter the date(s) of such returns.
- **Beer voluntarily destroyed:** Enter the date(s) the taxpaid beer was destroyed.
- **Obtained proof of export after tax payment:** Enter the export serial number assigned to the Beer for Exportation, TTB F 5130.12, for the shipment in question, and the serial number of the excise tax return on which you paid tax on beer that was exported prior to receiving proof of export. Prefix your export serial number with “EX” and your tax return serial number with “TR”.
- **Safe Harbor rule:** Enter the tax return serial number for the second period in September (TR-YYYY-18).

Column (c). If a TTB-approved claim, enter the total amount approved for the claim. Otherwise, leave blank.

Column (d). If a TTB-approved claim, enter the balance remaining on the claim. This is the amount not taken on prior return periods. If no credit has been taken against this claim before, this amount will equal the amount in column (c). For other types of decreasing adjustments, leave blank.

Note: If TTB approves a claim for an amount that exceeds your tax liability, this allows you to take the approved credit incrementally.

Column (e). Enter the amount of the claim or other decreasing adjustment taken for this period.

Operational Period (for semimonthly filers only). Select the month, from the dropdown, that corresponds with the operational data you are about to enter below. This month must correspond with the month of the period shown in line 3c. Remember to report operational data for the entire month, not just for the tax period listed in line 3c.

- 28. Total Beer on Hand at the Beginning of Period.** Enter the number of barrels from line 44 of the form submitted for the last period. If this is your first time submitting TTB F 5130.Pilot-B, enter the amount of beer on hand at the end of the period from line 33 of the Form 5130.9 or line 17 of the Form 5130.26, most recently submitted.

You should report the actual number of barrels you receive in bond. If the beer lost in transit to your premises exceeds two percent of the quantity shipped, you must submit a claim to TTB for remission of the tax on the entire loss per [27 CFR 25.184\(c\)](#).
- 31. Beer Returned to Brewery after Removal.** Enter number of barrels returned to your brewery after having been removed for consumption or sale, but do **not** report returned barrels of beer that you have tax determined or paid and taken as an offset or deduction against the quantity of beer removed for consumption or sale from your brewery on that business day, as provided in [27 CFR 25.159](#).

Maintain daily records of any such offset pursuant to [27 CFR 25.211](#) and [25.292](#). For this pilot, if the beer returned to your brewery was tax determined or paid by another brewery and you would like to recover the tax on that beer, you must file a claim for refund with TTB per [27 CFR 25.213](#) or make a decreasing adjustment on Schedule A.

- 32. Physical Inventory Disclosed an Overage.** Report any gains in inventory discovered in the course of the monthly inventories required by [27 CFR 25.294](#).
- 33. Total Beer on Hand at the Beginning of Period Plus Additions to Inventory.** The form will

automatically calculate this total based on what you entered on lines 28, 29, 30, 31, and 32. This total must match line 41, Total Beer on Hand at the Beginning of Period Plus Additions to Inventory.

II. SUBTRACTIONS FROM BEER INVENTORY

II(A). Beer Removed Without Payment of Tax

34. **Exports without Payment of Tax.** Enter the number of barrels removed without payment of tax under [27 CFR 25.203](#) for exportation, for use as supplies on vessels and aircraft, or for transfer to a foreign-trade zone for exportation or storage pending exportation.
35. **Transfers in Bond.** Enter the number of barrels transferred from your brewery's bonded premises to another brewery's bonded premises under [26 U.S.C. 5414](#) or to a pilot brewing plant of the same ownership under [27 CFR 25.271](#).
36. **Other Removals without Payment of Tax.** Enter the total number of barrels removed as unfit for beverage use under [27 CFR 25.191](#); removed for laboratory analysis or for research, development, or testing under [27 CFR 25.195](#) or [25.196](#); removed by pipeline to a distilled spirits plant under [27 CFR 25.201](#); and removed for personal or family use under [27 CFR 25.207](#). Do **not** report barrels of beer that you removed in connection with an offset for beer returned to your brewery the same day, as provided in [27 CFR 25.159](#). Maintain daily records of any such offset pursuant to [27 CFR 25.211](#) and [25.292](#).
37. **Total Removals without Payment of Tax.** The form will automatically calculate this total based on what you entered on lines 34, 35, and 36.

II(B). Other Inventory Subtractions

38. **Beer Consumed or Destroyed on Brewery (Not Tavern) Premises.** Enter the total number of barrels consumed anywhere on brewery premises except in a tavern, such as beer sampled by brewery personnel or offered to the public for tasting without charge. Also, report any unsalable beer destroyed at the brewery and including any beer tested by an onsite laboratory per [27 CFR 25.295](#).
39. **Losses, Including Breakage and Theft.** Enter the number of barrels lost by theft, breakage, or other causes. Losses are known quantities of beer lost due to breakage, casualty, or other unusual cause such as theft or damage. See [27 CFR 25.11](#). Under [27 CFR 25.282\(e\)](#), a brewer who sustains a loss before transfer of title who desires to adjust the tax or submit a claim for refund must, on learning of the loss of beer, immediately notify TTB.
40. **Physical Inventory Disclosed a Shortage.** Enter all shortages discovered during the monthly inventory required by [27 CFR 25.294](#) and affirm your recordkeeping and taxpayment obligations by checking the box, "I have taxpaid all unexplained shortages on Schedule A above."

Under TTB regulations, a **shortage** is defined as an unaccounted-for discrepancy (missing quantity) of beer disclosed by physical inventory. See [27 CFR 25.11](#). Generally, unexplained shortages of packaged beer are considered "removed for consumption or sale" and are taxable. See [Industry Circular 2007-1](#), Shortages of Inventoried Packaged Beer, for more information.

If you do not have records that explain the shortage in accordance with [Industry Circular 2007-1](#), you must taxpay any unexplained part of the shortage on Schedule A.

Because you are affirming your recordkeeping and taxpayment obligations, this pilot form does **not** require you to submit an explanation for a shortage reported on this line. For any inventory shortage that you do not taxpay, you must maintain in your records an explanation that establishes that the beer in question was not removed for consumption or sale and, thus, no tax liability exists with respect to the product.

- 43. Total Other Subtractions from Inventory.** The form will automatically calculate this total based on the number of barrels reported on lines 37, 38, 39, and 40.
- 44. Total Beer on Hand at the End of Period.** The form will automatically calculate this total based on line 41 minus the amount on line 42(b) and 43. This number cannot be less than zero.
