Dear Sirs.

These product support of option #2-5-4 (Flavored Malted Beverages) have been out and already established a presence in the market and have been sold as an taxed based on their approve as malt beverage. So any changes in this will negatively effect the ,arket badly in both ways, consumers. and buyers.

So I strongly support option #2 for the unaltered and continued sale of these product. Thank you for your consideration,

Khurram Sajjad Ali
