Subject: TTB Notice No. 4

I write to express my support for the 0.5% standard on flavored malt beverages. For a host of reasons, ranging from taxation to pure and simple public awareness, the integrity of the fermentation process of malt beverages must be preserved. Without a federal standard, distinguishing malt beverages from distilled spirits will become impossible with each passing year. Virginias ABC Department has endorsed the 0.5% standard and I encourage you to adopt the proposed regulation.
