Re: TTB Notice # 41

Dear Mr. Foote:

If these rules are enacted I will discontinue bottling. I can't afford the cost of retrofitting or replacing my labeling equipment and I can't afford the one-time charges associated with printing new labels.

I understand the political pressure that the TTB faces but these warnings will do little to prevent the abuse of alcohol in our society. The experience of the tobacco industry is proof of this.

Thank you for your consideration of my comments before reaching a decision on this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Charlie Sullivan", written over a horizontal line.
