Purpose

This Webinar is being provided to all industry members as a basic guide to obtaining export certificates. It is aimed at people who need a refresher on what the requirements are and for those who are new to the process on obtaining an export certificate.

As a result of receiving this Webinar, it is expected that industry members will increase their understanding of the export certificate process and TTB's requirements for processing, which will reduce the number of delays.

International Affairs Division

Export Certificates

We assist industry members seeking to export their products by providing export certificates, or documents, that are often required by other countries in order for U.S. alcohol beverage products to be imported into a foreign market.

How to obtain a TTB permit

What is Needed to Obtain an Export Certificate

To obtain an export certificate for your exported beverage alcohol products, you must have a permit, brewer's notice, or registration from TTB.

To obtain a TTB permit, brewer's notice, or registration from TTB, please review this website: <https://www.ttb.gov/ponl/permits-online.shtml>.

Using Permits Online is the fastest way to obtain a TTB permit. If you need assistance with Permits Online, please contact 1-855-882-7665 or use Permits.Online@ttb.gov.

Types of Export Certificates

Types of Export Certificates

Any export certificate required by a foreign country and submitted to TTB for approval must be one of the types listed in the following slides with all the information requested on the certificates. The type of certificate required should be expressed to you by your foreign importer based on what is needed to clear the shipment. Requirements may vary by country.

TTB also provides some limited guidelines on foreign government import requirements at <https://www.ttb.gov/import-export/itd/international-imports-exports-requirements>. Here you will find a 'drop down' menu for finding various countries and their requirements.

Types of Export Certificates

The most common types of export certificates processed by the International Affairs Division (IAD) are:

- Certificate of Free Sale
- Certificate of Origin and/or Age
- Certificate of Health
- Certificate of Sanitation
- Certificate of Authenticity
- Certificate of Bottling
- Sanitary Statement/Certificate
- Certificate of Manufacturing Process

Types of Export Certificates Forms and Methods

- Certificate of Origin, Analysis, or Typicity (typically used for shipments to Brazil)
- Consolidated Wine Export Certificate (for wine exported to China)
- APEC Model Wine Certificate
- VI1 Form
- TTB F 5110.42 (Certificate of Authenticity Bourbon Whiskey)
- TTB F 5110.58 (Certificate of Origin and Age of Distilled Spirits)
- Electronic Export Certificate
- Letterhead Export Certificate

Creating an Electronic Export Certificate

Once you are logged into myTTB, you will automatically be on your dashboard.

You will then click on **Export Certificates**.

The screenshot shows the myTTB (beta) dashboard. At the top is a navigation bar with the TTB logo, the text "myTTB (beta)", and a "My Profile" link. Below the navigation bar are tabs for "Dashboard", "Importer", and "Export Certificate". The main content area includes a "myTTB Dashboard" link, a notification about CBMA Claims, a "Welcome to myTTB" message, and a section titled "Entity Access" with a "Get entity access" button. Below this is a "Modules" section with two cards: "CBMA Importer Claims" and "Export Certificates". The "Export Certificates" card is highlighted with a blue button labeled "Export certificates".

User Guide for the Electronic Export Certificate System

You can find a step-by-step user guide of our electronic export certificate system here:

<https://www.ttb.gov/import-export/itd/electronic-export-certificate-user-guide/access>

This guide covers all of the aspects of the system mentioned in this section of the presentation.

Requirements for Standard Letterhead Export Certificates

Requirements for Standard Letterhead Export Certificates

The standard letterhead certificates are the most commonly requested certificates and accepted by many foreign countries.

Unfortunately, the current template does not allow you to directly add letterhead images. Accordingly, you must save the completed template and add your letterhead separately.

The type of export certificate you are requesting must be typed below the company letterhead.

Requirements for Standard Letterhead Export Certificates

The name and full address (street, city, state, and zip code) of the exporting company, as well as the TTB Permit, Registry, or Brewer's Notice Number for the exporting company **must** be provided on the certificate.

All of the information for the foreign importer must be provided in the Shipped To section to include the name of the country, importing company's name, and complete address.

Requirements for Standard Letterhead Export Certificates

In the description section you will list the name of the product and type, the number of cases, bottles per case, and bottle/can volume. This information must be provided in accordance with the importing country's requirements.

Some countries may require an export certificate to register the product prior to its first importation. In this case, please put "For registration purposes only" in the additional notes section of the certificate.

If you have more than five products you will need to complete more than one set of certificates.

Requirements for Standard Letterhead Export Certificates

You must ensure that you provide the typed name and title of the authorized signatory for the company beneath the signature line and the date.

The letterhead certificates must contain an original signature by an authorized signatory (no stamps).

The information you entered on the company letterhead is automatically reproduced on the TTB letterhead.

Requirements for Standard Letterhead Export Certificates

Once you have all your certificates completed (one company letterhead and one TTB letterhead) , please ensure you submit both pages of each certificate together **in a pdf format** to exportcertificates@ttb.gov for processing.

Please **do not** split the letterheads when you submit them (i.e. do not submit all company letterheads in one attachment and all TTB letterheads in another).

Requirements for Consolidated Chinese Wine Certificates

Requirements for Consolidated Chinese Wine Certificates

General Instructions for the Consolidated Wine Export Certificate:

- China requires that U.S. industry members use the one-page consolidated wine export certificate when exporting wine there.
- The certificate incorporates all three certificates (Certificate of Origin, Certificate of Health/Sanitation, and Certificate of Authenticity/Free Sale).
- If you should need a Certificate of Bottling it must be applied for separately using the export certificate letterhead template.

Requirements for Consolidated Chinese Wine Certificates

- **The consolidated Chinese wine export certificate should not be used when exporting to Hong Kong or Taiwan. For exports going to Hong Kong or Taiwan the export certificate template (letterhead certificates) or APEC model wine certificate should be used.**
- Please fill out the consolidated certificate with all the required information, print out, sign, and submit it to exportcertificates@ttb.gov as PDF files. TTB will stamp approved certificates with the date, a signature, and the TTB seal and return them to the submitter.
- **Please note that approved certificates cannot be emailed back to the submitter, as China requires these documents to contain an original TTB signature and TTB seal.**
- Only one copy of the consolidated Chinese Wine certificate needs to be submitted.

Requirements for Consolidated Chinese Wine Certificates

To obtain an approved request, the submitter must (a) be permitted by TTB as a producer or wholesaler, (b) complete all required information in a complete, accurate and truthful manner, and (c) have the certificate signed by a person with signing authority on the company's TTB permit.

Specific Instructions for Filling out the Certificate:

- **For wineries which directly export wine to China:** Please indicate **"Same"** in all boxes in the Exporter/Wholesaler section.
- **For exporters/wholesalers which export wine to China:** Please provide all the information requested in both the Winery/Bottler/Producer section and the Exporter/Wholesaler section.
- **In the China Importer/Consignee section,** please provide all the information requested for the Chinese importer/consignee who will receive the wine.

Requirements for the Consolidated Chinese Wine Certificates

In the Description of the Wine section, there are five mandatory items (name, brand, origin, net volume, and alcohol content) and three items for use where applicable (varietal or type, vintage, and appellation).

In the Quantity section, please use the format “# Bottles/Case, # Cases”.

In the Bottling Date section, date information is required but lot code information is optional.

In the Signature section, please make sure the person signing the document has signing authority on the company’s TTB permit.

➤ **Please ensure you type the name of the person who signed the certificate and provide their title in the section beneath the signature section.**

Requirements for the APEC Model Wine Certificate

Requirements for the APEC Model Wine Certificate

U.S. wine exported to Asia-Pacific Economic Cooperation (APEC) economies may be accompanied by an APEC Model Wine Certificate (except for wine that is shipped to China).

APEC is comprised of 21 economies (Australia, Brunei Darussalam, Canada, Chile, Chinese Taipei, Hong Kong, China, Indonesia, Japan, Malaysia, Mexico, New Zealand, Papua New Guinea, People's Republic of China, Peru, Republic of Korea, The Republic of the Philippines, The Russian Federation, Singapore, Thailand, United States of America, and Vietnam).

Requirements for the APEC Model Wine Certificate

The purpose of this certificate is to help streamline wine exports to the APEC region in a more efficient manner by consolidating existing certificate requirements into a single certificate usable across the region.

The APEC Model Wine Certificate is a multi-purpose certificate used for Certificates of Authenticity/Free Sale, Certificates of Health/Sanitation, and Certificates of Origin.

Requirements for the APEC Model Wine Certificate

The use and scope of the APEC Model Wine Export Certificate is at the discretion of the importing APEC economy, and it is highly suggested that exporters consult with their importer to ensure they meet all requirements and that they have adopted the certificate in lieu of pre-existing requirements.

The APEC Model Wine Certificate does not affect any agreements in APEC economies that were agreed to previously via free trade agreements, economic partnership agreements, or other types of agreements.

Exporters should refer to instructions for completing the APEC Model Wine Certificate.

Please note that Thailand requires specific language to be added to its certificates

Simplified Export Certificate

When wine is exported to the European Union by the winery that produced it, then wineries may self-certify using the Simplified Export Certificate.

The Simplified Export Certificate does not have to be submitted to TTB.

Please consult TTB Industry Circular 2007-2 (<https://www.ttb.gov/public-information/industry-circulars/archives/2007/07-02>) for more information on this certificate.

Requirements for the Brazilian Certificates of Origin, Analysis & Certificates of Typicity

Requirements for the Brazilian Certificates of Origin, Analysis & Certificates of Typicity

Brazil currently has three different types of certificates:

- Certificate of Origin
- Certificate of Analysis
- Certificate of Typicity

The forms provided by Brazil must be used for the certificates of Origin and Typicity; letterhead certificates are not accepted by Brazil.

The templates for the certificates of origin and typicity can be found here: <https://www.ttb.gov/import-export/itd/export-documents-certificates>.

Requirements for the Brazilian Certificates of Origin, Analysis & Certificates of Typicity

Certificate of Analysis

Prior to exportation, Brazil requires each shipment of the product to be analyzed by a TTB-certified laboratory (a list of TTB-certified laboratories can be found on this link

<https://www.ttb.gov/scientific-services-division/chemist-certification-program>).

Requirements for the Brazilian Certificates of Origin, Analysis & Certificates of Typicity

The Certificates of Origin must have the following information when submitted to TTB:

- For the “Exporter” and the “Producer” items of the document, you must provide the name of the company, company’s complete address, and TTB registry/permit number.
- To receive an endorsement/approval from TTB, the Certificate of Origin must also have the below statement above our endorsement in addition to other required language stated on the template on the link above:
- ***The Alcohol and Tobacco Tax and Trade Bureau (TTB) of the U.S. Department of the Treasury confirms that the producer/exporter identified on this certificate holds a permit/registration/brewer’s notice issued by TTB as identified by the permit/registry/brewer’s notice number listed on this certificate and that the information about the exported product(s) is based on representations made by the producer/exporter.***

Certificate of Typicity (Brazil)

This certificate is requested by Brazil for products that do not meet Brazil's standards of identity for alcohol beverages (such as wines above 14% alcohol by volume).

- One of the biggest errors that is made on this form is an incorrect TTB permit, registry, or distillery number. The statement below must be provided in section 4.5;

The Alcohol and Tobacco Tax and Trade Bureau (TTB) of the U.S. Department of the Treasury confirms that the producer/exporter identified on this certificate holds a permit/registration/brewer's notice issued by TTB as identified by the permit/registry/brewer's notice number listed on this certificate and that the information about the exported product(s) is based on representations made by the producer/exporter.

Requirements for the Brazilian Certificates of Origin, Analysis & Certificates of Typicity

For faster turnaround, we **highly recommend** the certificates for Brazil be e-mailed to exportcertificates@ttb.gov because our original signature is the only signature accepted by Brazil.

Thailand Requirements for Export Certificates

Thailand Requirements for Export Certificates

Thailand requires that imported alcohol beverage products comply with set limits for certain substances as set out in Thailand's regulations. Details of these limits have been prepared by the U.S. Department of Agriculture's Foreign Agricultural Service and can be found [here](#). To satisfy this requirement, U.S. alcohol beverage exporters to Thailand have the option of submitting documentation to Thailand. If exporters do not provide export certificates with the attestations included in the attached templates, they will need to submit samples of their products directly to Thailand's Excise Department for analysis.

Signing Authority Requirements for Export Certificates

Signing Authority Requirements for Export Certificates

All export certificates must be signed by a person with power of attorney (POA), or other proper notification of signature authority on file with TTB (when required).

The name on the certificate must match what was given to us on your TTB permit, brewer's notice, registration, or POA, so no abbreviations or nicknames can be used.

Recently we have found that a lot of companies have had a high turnover and need to update their authorized signatories.

Please also note that a myTTB POA for the export certificate module is only sufficient to sign for export certificates generated in myTTB.

* Please submit the name of only **one** authorized signatory on the certificates.

Signing Authority Requirements for Export Certificates

If you are new to the company or aren't sure as to whether you are an authorized signatory, please contact us via email at exportcertificates@ttb.gov.

Signing Authority Requirements for Export Certificates

If you have a Permits Online (PONL) account, you can update the authorized signatories online and submit a Power of Attorney (POA).

If you don't have a PONL account but would like to get one, please follow the directions provided on this link <https://www.ttb.gov/online-services/ponl/customer-support>.

Signing Authority Requirements for Export Certificates

You may also use either of the following forms to make updates to your authorized signatories:

- [TTB Form 5000.8](#) Power of Attorney
- [Form 5100.1](#) Signing Authority for Corporate Officials

Mail completed form to our National Revenue Center (NRC):
Director, National Revenue Center
550 Main St, Ste. 8002
Cincinnati, OH 45202-5215

If you have any questions about obtaining signing authority, please contact the NRC at 1-877-882-3277

Submitting Export Certificates

Submitting Export Certificates

TTB recommends submitting export certificates via email to exportcertificates@ttb.gov.

Submitting export certificates by mail is also permitted but will result in longer processing times. When you submit your certificates via mail, please ensure you submit a business card or point of contact information (name, email, and phone number) with your certificates in case there are any errors or questions in regard to your submission.

Exportcertificates@ttb.gov is the required email for export certificate submissions and is the only email export certificates should be submitted to unless otherwise directed.

You will receive a faster response time if there is an issue or error with your submission.

Submitting Export Certificates

Please ensure that you have reviewed your certificates for accuracy prior to submitting to IAD.

When you submit your export certificates you must ensure that you include

- Any special instructions
- Export certificates
- A prepaid shipping label with your return address from USPS, UPS, or FedEx. This will also allow you to track and expedite the return of your documents.

All electronic documents must be submitted in an Adobe PDF format (.pdf). No other formats will be accepted because they alter the size of the export certificates when printed which causes rejection and delays.

Submitting Export Certificates

If you are submitting your export certificates using USPS, please use the following address:

Alcohol and Tobacco Tax and Trade Bureau
(TTB)

International Affairs Division
Attn: Export Certificate Program
1310 G St. NW, Box 12
Washington, DC 20005

Submitting Export Certificates

If you are submitting your export certificate requests through a commercial carrier (e.g. FedEx or UPS), please use the following address:

Alcohol and Tobacco Tax and Trade Bureau (TTB)
International Affairs Division
Attn: Export Certificate Program
1310 G St. NW, Suite 300E
Washington, DC 20005

Export Certificate Submission Process

Denied

Corrections need to be made

At this point, the industry member will be contacted via email or phone about the corrections that must be made prior to processing their request.

Approved

All certificates will be processed accordingly and returned via the return mailing address or prepaid shipping label provided. Export certificates are only returned via mail at this time.

Changes or Updates to Export Certificates

Changes or Updates to Export Certificates

Any modifications or corrections that need to be changed **must be done by the industry member** (IAD will not annotate changes on behalf of industry members).

If you need to modify or correct export certificates that have been submitted, you should do so **immediately** and indicate that the submission is a “REVISION” in the subject line.

If the certificates have already been processed and returned you will have to submit a new submission with the corrections and a new prepaid shipping label.

Timeframes and Status Updates

Timeframes and Status Updates

We aim to have all export certificates processed within **15 calendar days**.

Unexpected events may cause delays in normal processing.

Please be mindful of these timeframes when submitting your export certificates.

Timeframes and Status Updates

Unless it is an urgent request, please email us to inquire about the status of export certificates only if we have **exceeded** the maximum processing time described, **and after you have already checked the status of your prepaid label, if provided.**

- The best way to receive an update on the status of your submission is to send an email to exportcertificates@ttb.gov.

Timeframes and Status Updates

All export certificates with the exception of those submitted via MyTTB are mailed back to industry members.

Plan Ahead!

We recommend that you plan ahead and submit documents in a timely manner, especially around the holidays and end of the year.

Timeframes and Status Updates

We suggest waiting for approved documents prior to exporting shipments, which will avoid any delays or fees (from the foreign importer) incurred due to incorrect submissions or lack of planning.

Apostilles

Apostilles

An apostille certifies a document issued by the federal government for recognition by countries of the 1961 Hague Convention.

Apostilles for documents that are signed by TTB (such as export certificates) are done through the State Department. The inquirer will need to obtain an export certificate from TTB first and then submit it to the State Department once they receive it back.

Details on the apostille process are available at <https://travel.state.gov/en/replace-certify/authenticate-documents/apostille-certificate.html>.

Common Export Certificate Errors

Common Export Certificate Errors

Not providing the typed name and title of the authorized signatory below their signature.

- The only certificates that do not require the signatory's typed name and title are the VI1 Form and TTB forms 5110.58 and 5110.42.

The person signing the export certificate isn't an authorized signatory on file with TTB or doesn't have a TTB approved power of attorney for the company.

- We cannot process an export certificate if it is not signed by someone with signing authority or power of attorney. This is the most common reason for delayed TTB approval.

Common Export Certificate Errors

The export certificate submitted doesn't comply with the format on our template.

- Please use the template provided on our website and ensure you provide all the requested information.
- TTB requires that the physical address (street, city, state and ZIP code) provided on the export certificates, match the address on file with your permit with TTB.

Common Export Certificate Errors

When incorrect TTB permit, registry or brewer's notice numbers are submitted it slows down processing time because we aren't able to see if the company is compliant with the requirements or if the certificates were signed by an authorized signatory.

- Please provide the TTB permit, registry, or brewer's notice numbers listed on the TTB permit for the company on the certificates.

Common Export Certificate Errors

Not providing a return mailing address or prepaid shipping label. Please ensure that you provide a prepaid shipping label with your submission if you want to be able to track your documents and receive an expected delivery date.

- If you provide a return mailing address for return via USPS regular mail, please understand that there is no way to provide an expected delivery date or to track the documents.

TTB Certified Chemists

Some foreign governments require lab analysis as a condition of entry. While TTB's laboratories do not analyze exported products, TTB offers a Chemist Certification Program for the export of beverage alcohol to foreign markets.
